

WHY HIRE?

With ever increasing costs of equipment it is obviously uneconomic to purchase items that will only be required for 'one-off' or intermittent jobs. In addition, technology is improving machines so quickly that it is better to use today's rather than last year's model to obtain maximum benefit.

For the private user the availability of professional equipment enables great savings to be made on a wide variety of jobs.

For industry the benefits of hiring are many. Less overheads with no more expensive equipment to lie idle, less security and stock control for items stood out of use, no more repair charges; every job can be costed accurately. Hire charges are a legitimate trading expense which can be offset against taxation,

EXPLANATION OF DEFINITIONS

HIRE RATE	This is the charge made for the rental of equipment for a specific period. These rates do not include V.A.T.
HIRE PERIOD:	½ Day 8am to 1pm OR 1pm to 5pm OR 5pm to 8:30am. The above rate is only available for equipment as indicated. Return and collection by the customers own transport.
1 Day	Any 24 hour period
2 Day	Any 48 hour period, including WEEKENDS provided equipment is returned by 10am MONDAY.
1 Week	Any period 72 hours up to 1 week. Hires over 1 week which include part of a week are charged Pro Rata based on 1/5 th of the weekly rate, e.g. 2 weeks and 2 days hire would be charged at 2 2/5 weekly rate NOT 2 weeks plus 2 days hire rate.

ADDITIONAL INFORMATION

In common with most hire companies and in accordance with policies laid down by the industry's trade association, our charges for hire include all normal accessories such as spanners, chuck keys, guards etc., essential for the proper working of the machine in question.

Certain tools in order to do their job use various consumable items, such as sanding belts, abrasive discs, chemicals etc. We are pleased to supply these on a sale or return basis.

Machines employing cutting blades or drill bits will be supplied with these in sharp condition and spare ones may be taken if required. A charge for sharpening will be levied in addition to the hire rate.

WE STRONGLY ADVISE ALL CUSTOMERS TO USE PROTECTIVE EQUIPMENT AS LAID DOWN BY VARIOUS STATUTES AND REGULATIONS. IT IS THE HIRER'S RESPONSIBILITY TO PROVIDE THEMSELVES AND THEIR OPERATIVES WITH THESE. A SELECTION OF SUCH EQUIPMENT IS AVAILABLE FOR SALE AT OUR PREMISES.

IMPORTANT SAFETY NOTE

WRITTEN INSTRUCTIONS AND SAFETY NOTES ARE ISSUED WITH EACH ITEM. IF REQUESTED

TRANSPORT: Our equipment is selected for ease of handling so that it can be readily collected in most cars. We undertake transport if required but this will be extra to and from site, based on distance.
